EDUCATION

•Bachelor of Engineering, Information Technology

2024-28

Don Bosco Institute Of Technology, Kurla

CGPA: 7.5

EXPERIENCE

•CSI-DBIT (Computer Society of India – DBIT)

July 2025 - Present

Assistant Event Head

- Coordinated with technical and non-technical teams for planning and execution of college events.
- Managed event schedules, registrations, and on-ground operations.
- Supported core committee in organizing workshops, competitions, and seminars.

PROJECT

•Open Civic Complaint Portal | Java, Spring Boot, MySQL

- Developed a web-based civic complaint management system using Spring Boot and MySQL.
- Designed RESTful APIs for complaint registration, status tracking, and user management.
- Implemented database schema for storing complaints, users, and complaint lifecycle data.
- Streamlined communication between citizens and local authorities through a centralized platform.

•Rainwater Harvesting Estimator | React.js, Node.js, Express, MongoDB

- Developed a MERN-stack application enabling users to estimate rainwater harvesting volume, installation costs, and annual savings based on localized climate data.
- Implemented secure JWT-based authentication and designed RESTful APIs to manage user calculation history and leaderboard rankings.
- Built an interactive, animated UI using React and Framer Motion, featuring dynamic data visualizations to illustrate water demand fulfillment.

ACHIEVEMENT

•InnoQuest-2025-26

Sept 2025

First Prize - Group Mini Project

- Secured 1st position among Second Year IT teams in mini project evaluation.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript

Frontend: React.js, HTML, CSS, Framer Motion

Backend: Spring Boot, Node.js, Express.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, REST APIs, JWT Authentication, Maven

Concepts: Data Structures & Algorithms, DBMS, Computer Networks, OOP, Operating Systems
